PP-1622MK

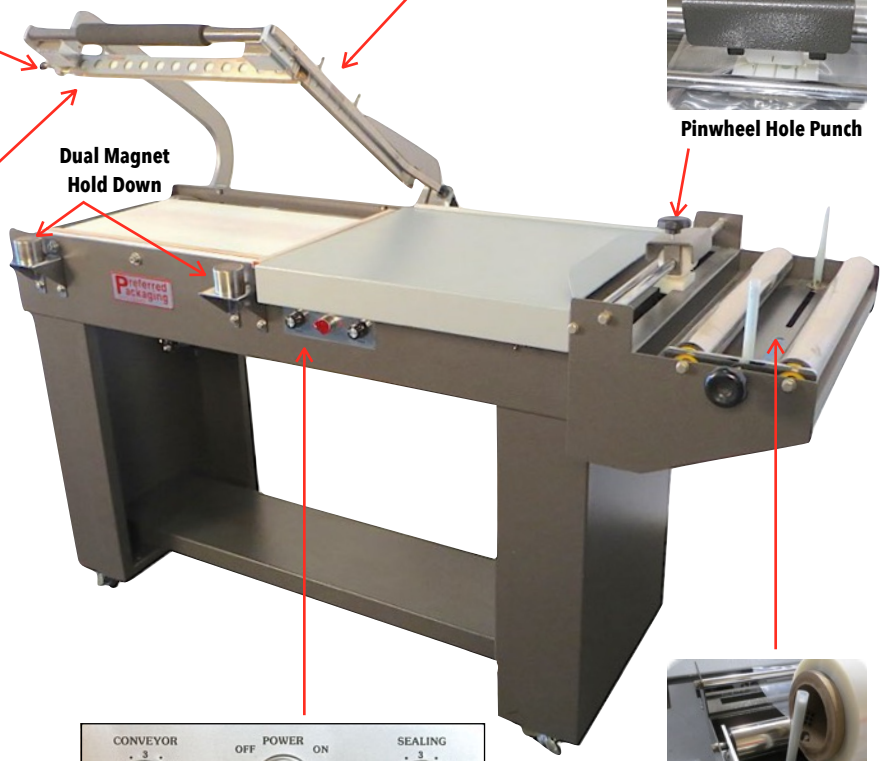
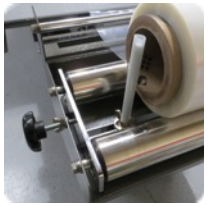
Compensator Assembly
keeps sealing temperature from overheating.

The **Micro Knife Sealing Technology** is the most advanced seal system available on a semi-automatic L'Sealer. This Teflon-coated sealing blade is guaranteed not to break for 1 full year or we will replace at no cost. Teflon coating allows the film to seal with minimal smoke or residue and produces straight seals with no pinholes. It is simply the best seal system on the market today.





The **Preferred Pack Model PP-1622MK** is a proven workhorse with thousands of machines in the field successfully running since 1993. Our 20 plus years of experience as the industry leader in manufacturing semi and fully automatic L'Sealers will give you the peace of mind knowing you have purchased the best machine available on the market today!

Our mission is to provide our customers with the latest technology and a user friendly machine that is efficient and easy to maintain. The Preferred Pack brand will give you the lowest total cost of ownership available in the market.

We partner with a nationwide network of highly trained packaging distributors in order to better serve our customers. This partnership provides a support structure to ensure a smooth startup, reliable local service and a long term return on your machinery investment.
