

Air Pillow System

An economical way to pack and protect your products.

Air3™

To keep your packing process humming, you need Air3™ which combines great cushioning performance, simple operation and time-saving productivity.

FEATURES & BENEFITS

- **Smaller footprint, bigger impact.** A robust design that takes up less space but can still take on heavy-duty packing challenges.
- **Give productivity a rally.** With a 56ft/min rate you can efficiently pack large or small batches.
- **No training required.** Lets you perform up to twenty different pre-settings with the press of a button.
- **Endless versatility.** Additional support options are available, such as pedal control, table stand, automatic hopper delivery system, coiler and movable delivery system, etc.
