

Easy Overwrapper

SIO

Semi-Automatic

The Easy Overwrapper is an user friendly and versatile machine. It is specially designed for companies with multiple small batch productions that require change sizes constantly. It is also made in a compact design with low cost in mind to meet today's space and budget constrains.

Two easy steps to overwrap

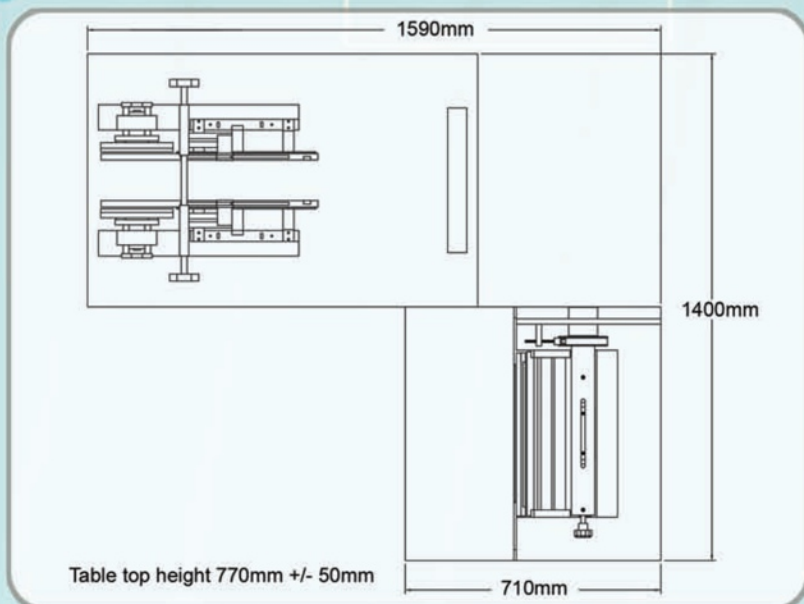

Step 1

Seal the back end

Step 2

Place the box to the machine, it will fold and seal both sides automatically
