

## PP-2040R-104 Semi-Auto Label Shrink Tunnel

### FEATURES

- PP-2040R-104 Semi-auto Label Shrink Tunnel is mainly for bottle shaped, jars, goblet product labels shrink which can shrink the bottle neck, body, bottom and overall;
- The frequency inverter controls transmission speed and has variable speed;
- The shrinking temperature is intelligently controlled by digital temperature controller and can be adjusted
- The unique delivery device can rotate 360 degrees to ensure smooth transportation.
- The bottle nipping stations can be adjusted without changing the molds;
- Adopt double hot air circulation system;
- It is widely used in food, pharmaceuticals. Cosmetics and other industries.

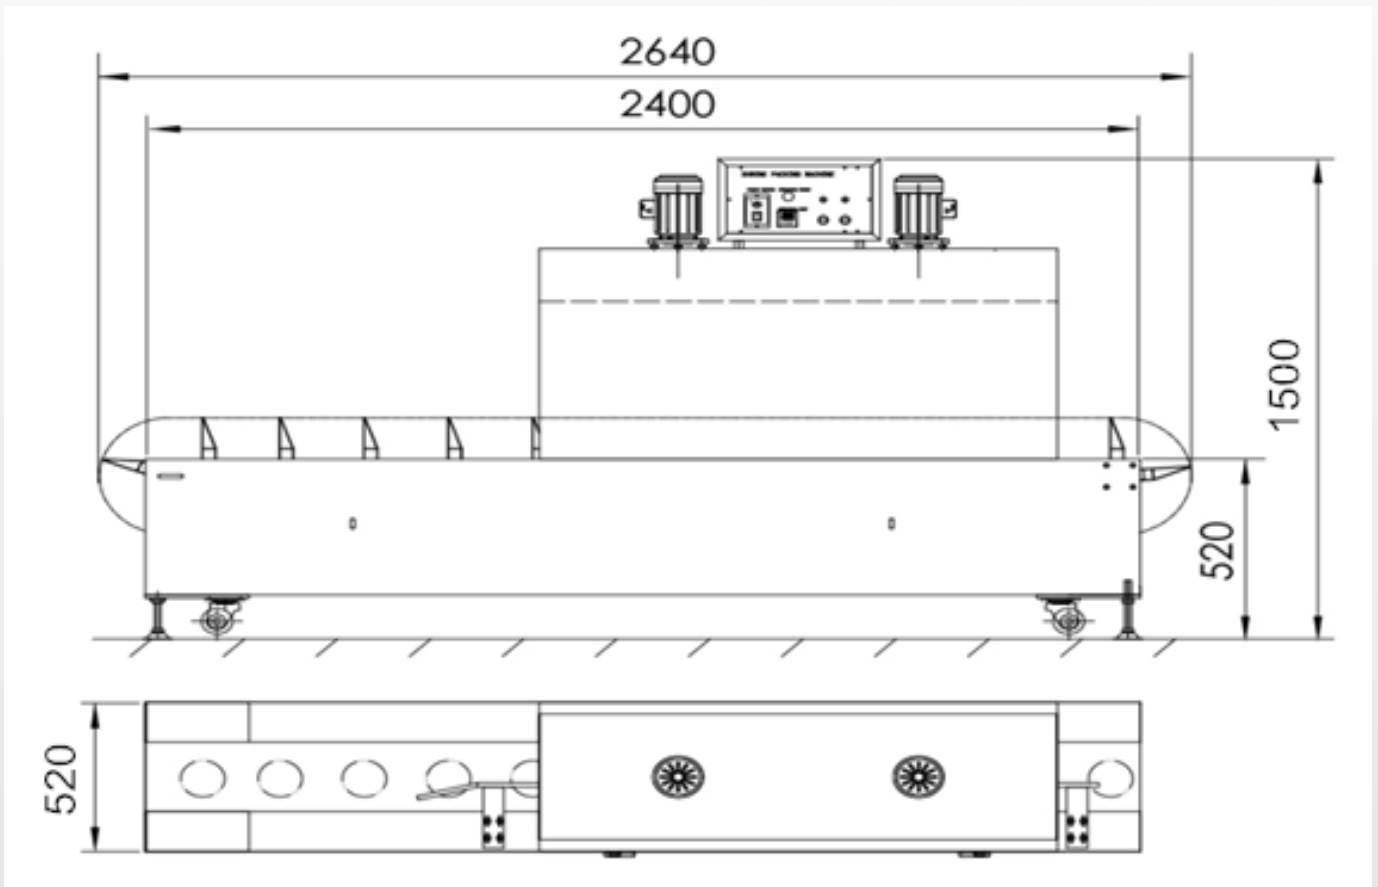

<b>Model</b>	<b>PP-2040R-104</b>
Power	12 Kw
Power Supply	AC220/380V 3PH 50/60Hz
Max Packing Size Dia.×H	200×400mm (7.87"×15.74")
Tunnel Size L×W×H	1250×250×400mm (49.5"×7.8"x 15.75")
Packing Speed	20-40m/min
Shrink Film	PET/PVC
Machine Size L×W×H	2640×520×1400mm (104"×20.5"×55.1")
Table Height	520±50mm (20.4"±1.9")
G./N. Weight	480/455kgs
Air Temperature	0-300°C

## CONFIGURATION

Shrink Tunnel	Brand	Country
<b>Gear Motor</b>	GPG	Taiwan
<b>Circulation Motor</b>	SURFON	Taiwan
<b>Intermediate Relay</b>	Siemens	Germany
<b>Temperature Controller</b>	Autonics	Korea
<b>Electrical Breaker</b>	Schneider	France
<b>Thermal Overload Relay</b>	Schneider	France
<b>AC Contractor</b>	Schneider	France
<b>Frequency Inverter</b>	Schneider	France
<b>Switches</b>	Siemens	Germany

*We can also offer customized machine according to the size of your products!*

## LAYOUT

*Warranty: 1 year. Within one year, we will replace the spare parts which are non-man made damage except the wearing parts. But the customer should bear the express charge. After the guarantee, we will offer the spare parts at EXW price and we will supply lifelong consulting services.*
