

Vertical balers

B-series B4

SMALL EASY-TO-USE BALER

Operating the B4 baler is simple and safe. The baler has a very low noise level, which minimizes disturbances to the work environment.

With 8,000 lbs press force, a long stroke, and efficient retainer dogs inside of the chamber, the B4 allows you to reach a high compaction ratio.

The indicator light automatically flashes when a full bale is ready to be made, preventing the baler from overfilling. Simply eject the finished bale using the safe two-hand ejection system.

Technical specifications

Press force (lbs)	8800
Power supply	110V 1-Phase 60Hz 10A
Motor (HP)	2.0
Noise level (dB)	57-60
Cycle time (sec)	42
Dimensions WxDxH (inch)	37 x 28 x 78
Weight (lbs)	661
Feed opening WxH (inch)	30 x 18
Load height (inch)	25
Chamber height (inch)	39
Stroke (inch)	26
Bale size WxDxH (inch)	30 x 20 x 24
Bale weight OCC (lbs)	85-130
Bale weight plastic (lbs)	110-155

1 Eject the finished bale after compacting waste. **2** Remove and store finished bale until pickup. **3** Using the safe two-hand ejection system, the finished bale is ejected automatically. **4** Knife mounted on front of baler allows safe cutting of straps.

- **Easy to connect**
Runs on single-phase power.
- **Low noise level**
Easy to operate at retail locations.
- **Operate from the front**
The B4 baler fits in areas with limited space.
