

Semi-Automatic Tray Sealers

an easy, fast, affordable way to seal a small quantity of trays

Model:

SEALTECH

The **Preferred Pack "SEALTECH"** series of Semi-Automatic Tray Sealers are a fast and easy way to seal small quantities of trays at an affordable price.

This semi-automatic sealing machine is a table top model used for preformed trays and it will seal and cut the film around the tray by an electric driven motor. The temperature and sealing time can be set depending on the type of tray and material being sealed. As you push the tray in the film is automatically moved over the top of the tray to be sealed, remove the tray and peel off any excess film, this machine is designed to ensure that each compartment of the tray is separately sealed. Easy changeover of tooling allows operator to run different trays easily. Features digital temperature controls, adjustable sealing timer and electric motor so no air is required. Constructed using #304 Stainless Steel. Will run CPET, PP, PET or APET trays.

**One set of tooling included with machine purchase. Additional tooling available.*
